

DESIGNED FOR A **BETTER** EVERYDAY

Premium Quality Homeware
for Modern Living

EXPERIENCE

Akij Homeware is a Bangladesh-based, export-focused manufacturer of high-quality plastic products and a proud unit of Akij Group.

We specialize in developing and manufacturing a diverse range of storage solutions, cleaning products, food-contact products, household essentials and everyday utility items designed to meet the evolving needs of consumers around the world.

Driven by modern manufacturing capabilities, innovative product development and rigorous quality standards, Akij Homeware is committed to delivering products that combine functionality, durability, thoughtful design and consistent performance. From product concept to final production, every stage is guided by our commitment to quality and precision. With a strong focus on international markets, we serve global customers and partners with reliable, scalable and competitively manufactured plastic solutions from Bangladesh. Our continuous pursuit of improvement enables us to respond to changing market demands while maintaining the consistency and quality our customers expect. At Akij Homeware, quality is not simply a benchmark—it is a commitment embedded in everything we do. Standard Uncompromised.

THE LEGACY OF

AKIJ

Founded in the early 1940s by
Sheikh Akij Uddin,

this family-owned company

We look forward to sharing these values worldwide and sustaining our success on the global stage

BENEFITS

Zero duty entry in Europe and other destinations

Maximized capacity utilization 81% lowering per-unit production costs

Strong financial capacity for new investments

Land Area:
685,000 sqm

5 cargo boats for riverine transportation

Manufacturing Area:
485623 sqm

Molds: 1000+
(Increasing to 1500 units by next year)

100+ own trucks for road transportation

Original equipment manufacturing and **original design** manufacturing facility

MATERIAL

Material capacity:
PP, LDPE, LLDPE, HDPE, TPR, Silicone, ABS, PET

Warehouse:
Dedicated compliant warehouse for keeping raw materials

Assurance of internal Quality Control

6 technologically advanced dedicated silos

Resin Processing:
3,500 MT/month (expanding to 5,500 MT/month from next year)

Advanced recycling plant for 1000 MT/month under development

PERFORMANCE

0.4 hands per tonne (lower than industry)

Power maintenance 100% (higher than industry)

<3.5% rejection (lower than industry)

99% shot weight consistency

Lower cycle time: 1kg 35 sec 10kg 120 sec 20kg 450 sec (lower than industry)

Optimum 81% usage of machine (higher than industry)

Zero interruption due to external factors

100% uninterrupted power from own power station (higher than industry)

99% on time delivery

THE CORRECT ITEM AT THE CORRECT PRICE, IN
THE CORRECT QUALITY, DELIVERED ON TIME

WE ARE YOUR FACTORY IN
BANGLADESH

TECHNOLOGY

In-house printing, packaging, and logistics facilities

Machine Capacity: **120** to **2800** tonnage

UV printing machines

Injection molding machines: **200+**

Automatic mold cleaning system

Foil printing and **screen printing** machines

14 MW power plant capacity

Latest model machines from **Milacron USA** (Q series), **Woojin Plaimm** (TBGS), **Haitian China**

Better efficiency with **350 3-axis** robots

Modern RO and **softener water** treatment plant

In-house mold tooling facility

Blow molding capacity

Tufting machine

Metal coating projects

CNC machine

Milling machine

EDM tooling

Lathe machine

Vertical machine

WORKFORCE

Experienced and unified work force

Approaching challenges with an optimistic attitude

60% male and 40% female workers

A family of 4,300 members, with an average age of 25

200+ internal promotions granted this year

11 executive and 217 in-house training sessions

110+ skilled engineers team

PRODUCT DEVELOPMENT

Akij Homeware transforms customer ideas into market-ready products through an integrated development process - combining design, engineering, tooling and scalable manufacturing.

1

CONCEPT

Idea, market need & product brief

2

DESIGN

Product development & engineering

3

TOOLING

Mold development, trials & refinement

4

MASS PRODUCTION

Quality-controlled scalable manufacturing

Safe, nurturing environment and flexible hours

Diverse, innovative, equal opportunities in a supportive environment

Advanced training, skilled mentors

Practical skills, expert instructors

Regular training, clear protocols & prevention measures

Sports, games and wellness initiatives

Skill development, continuous learning from experienced instructors

Vigilant, trained, 24/7 coverage ensuring workplace safety

BUILDING A SUSTAINABLE TOMORROW

Factory and Factory Riverside (Green Policy)

Water Treatment Plant (WTP)

Recycle Plant

PACKAGING & LOGISTICS

Buyer-ready fulfillment from finished product to shipment

Akij Homeware supports customers from product development to shipment preparation. Current operational lead times and loading capacity are built around high-volume buyer programs.

70–90 days

New product development–shipment readiness

30–45 days

Developed items–shipment readiness

50 containers/day

Container loading capacity

100+

Own trucks for nationwide distribution

5

Cargo boats for riverine transportation

Customized packaging

Pallet, half-pallet and PDQ/ display options.

Private-label packaging

Buyer brand, artwork and packaging requirements can be incorporated into the program.

Incoterm support

FOB as standard; other Incoterms reviewed according to destination and buyer requirement.

Shipment coordination

Production planning, final quality checks, packing and loading preparation integrated into fulfillment.

**Built for
local and
global channels**
— from factory to your market.

OEM & PRIVATE LABEL

Your product. Your brand. Our manufacturing capability.

Akij Homeware works with brands, retailers and businesses to develop market-ready products under their own brand names. From product design and specifications to materials, colors, packaging and production, we work closely with customers to develop solutions around their requirements.

Custom product development

New products developed around buyer concepts, drawings, reference samples and market requirements.

Private-label manufacturing

Products manufactured under the buyer's brand and approved specifications.

Material & color customization

Materials and colors aligned to approved product requirements.

Packaging customization

Buyer-specific packaging and retail presentation requirements.

High-volume OEM

Scalable manufacturing for growing local and international programs.

Long-term partnership

Our goal is not only to fulfill a single order, but to build relationships that grow over time.

EXPORT CAPABILITY

Global market readiness with a strong focus on Europe and the USA

Akij Homeware serves local customers while building long-term partnerships with international brands, retailers, distributors and private-label partners. Europe and North America are key international markets.

NORTH AMERICA / USA
A key market with strong retail presence.

EUROPE

A key growth market with long-term potential.

Global buyer outlook

Manufacturing and development structured around buyer specifications and market requirements.

Competitive value

Bangladesh-based manufacturing platform offering a balance of quality, function and cost.

Reliable supply

Scale, quality systems and logistics capability designed to support repeat programs.

Multi-category opportunity

Household, luggage, footwear, furniture and other lifestyle categories through one partner.

Manufactured in
BANGLADESH.

Developed for
GLOBAL MARKETS.
